

CARBON STEEL HOSE REELS

JZ10-OLP

Construction: Carbon steel reels are made in high-quality Carbon steel, the features include durable, corrosion-resistant powder coat paint, multi-position guide arms for versatile mounting options and heavy duty, reinforced steel stampings for increased strength.

Applications: It is suitable for general air, water, oil and high-pressure applications.

Remark: To be customized to enclosed model reels.

Part No.	Hose O.D. mm	Hose Length m	Pressure bar	Weight kg	Hose I.D. mm	Outlet NPTF thread	Inlet NPTF thread
Low pressure air/water reels, max temperature is 65°C/99°C
